PROFILE INFO

I've created WordPress and BigCommerce sites for clients worldwide, and I also have expertise in building Shopify e-commerce stores. My main goal is to create unique, eye-catching sites that stand out from your competitors. Through careful learning and searching, I'm able to understand your business objectives and translate those into effective web design.

- Arabic
- English (Good)

WORK EXPERIENCE

Repoteq Company.

2020 - 2021

I started my career as a remote WordPress developer at Repoteq Company from 2020 to 2021. I worked on real client projects, building, customizing, and managing WordPress websites. This role gave me a solid foundation in CMS development, project delivery, and client collaboration.

Green Spread

2021 - 2023

From 2021 to 2023, I worked remotely at Green Spread, specializing in Shopify and regional eCommerce platforms like Salla and Zid. I developed and maintained online stores, optimized performance, and provided tailored solutions, strengthening my expertise in multi-platform integration.

Freelance

2023 - PRESENT

Since 2023, I've been working as a freelance web developer, offering services in WordPress, Shopify, eCommerce platforms (Salla, Zid, Easy Order), LMS integrations, SEO, and responsive design, focusing on scalable, results-driven solutions that meet clients' business goals.
